Email: [amanpoonias962@gmail.com](mailto:amanpoonias962@gmail.com)  
Mobile: +91-9812361910

## SKILLS

- **Languages:** Python, JavaScript, C, C++
- **Technologies:** HTML, CSS
- **Databases/Tools:** DBMS, Git, GitHub, Figma
- **Soft Skills:** Problem solving, Team collaboration, Time management, Adaptability

## PROJECT

Password Protected Door Lock System |

Sept 2025 – Oct 2026

- Developed a password-based smart door lock system using Arduino and a keypad for secure access control.
- Implemented password verification, automatic locking, motion detection, and an alarm system using a PIR sensor and buzzer.
- Integrated ESP8266 Wi-Fi connectivity to send Telegram alerts for person detection, door unlocking, locking, and alarm events.
- **Tech Stack:** Arduino, ESP8266, Keypad, PIR Sensor, Servo Motor, Solenoid Lock, Telegram API.

## TRAINING

Community Development Project | Lovely Professional University

Environmental Awareness Campaign

- Participated in an environmental awareness campaign as part of the Community Development Project.
- Contributed to project documentation, awareness activities, and student data organization.

## CERTIFICATES

|                                                                                                               |              |
|---------------------------------------------------------------------------------------------------------------|--------------|
| • C Programming   <a href="#">Neo Colab</a>                                                                   | May 20, 2026 |
| • CS205: Building with Artificial Intelligence   <a href="#">Saylor Academy</a>                               | Jan 02, 2026 |
| • Introduction to AWS Identity and Access Management (IAM)   <a href="#">AWS Training &amp; Certification</a> | Jan 16, 2026 |
| • Machine Learning and Image Processing   <a href="#">ThingQator / Nasscom Foundation</a>                     | Dec 23, 2025 |
| • Leadership Fundamentals   <a href="#">EduTech Hub</a>                                                       | Oct 26, 2025 |

## ACHIEVEMENTS

- Developed and completed a practical IoT-based Password Protected Door Lock System.
- Completed multiple academic activities and practical learning tasks in programming, DBMS, and software development.

## EDUCATION

|                                                           |                                  |      |
